## Automated Door Company Arrives in Westmoreland Industrial Park

Tucker Auto-Mation Holdings USA, LLC is new to the Westmoreland Industrial Park located on Parker Drive in North Huntingdon Township. Tucker Automation supplies all types of swinging, sliding, folding, and revolving automatic doors in commercial and residential applications. Their doors are used in a variety of fields ranging from public airports to private office buildings. Tucker Automation's "SMART" doors are integrated with security cameras and capable of counting people entering and exiting while maintaining safe and reliable operation. The company continues to develop and incorporate state of the art technology into their industry.

Tucker Auto-Mation's scope of business expands into the energy management field. They partner with BOSS Controls to enhance their energy efficiency via smart power outlets and an autonomous energy management system. This system provides real-time power management and verification utilizing BOSS firmware and cloud-based software.

Tucker Auto-Mation is a technological and skilled manufacturer and now is a part of North Huntingdon Township's technologically driven business community. More information can be found on [Tucker Automation's website](#).

## Don's Appliances' New Location on Route 30

Don's Appliances is a family owned and operated business with 7 locations in the Pittsburgh area. Recently, they added a location in North Huntingdon Township off of Route 30. Their business sells all kinds of home appliances including refrigerators, microwaves, dishwashers, and washers and dryers. The brands of these appliances include Bosch, Maytag, Samsung, GE, and KitchenAid among a number of other notable brands. Don's Appliances provides quality service that includes knowledge and expertise on products, repairs and installation services. Their business also focuses on investing in their employees and their community. They have earned a spot on Pittsburgh Post-Gazette's list of top places to work from 2015-2017. Additionally, they have participated in a number of volunteer opportunities in their local communities.

Don's Appliances is a community driven business and a great addition to the North Huntingdon business community. Visit [Don's Appliances' website](#) for more information.
